

“Those who make peaceful revolution impossible will make violent revolution inevitable.”

John F. Kennedy

(May 29, 1917 - November 22, 1963)

My Interpretation

If people don't allow a country to change or improve in peace, then they will not be able to avoid violence. Protests can be sparked to cause violent!

Do I agree?

I agree because if peace is not an option, then violence is the other option. Without peace, protests and rebellions are present which lead to violence and possibly a war!
